“Differentiated Discipline, the Formula for Accountability”

Explore the formula for meaningful accountability, through a differentiated equitable approach to student discipline that does not solely rely on a path to consequences, but identifying tools that meet the needs of all students, fostering accountability.

Mr. Rufus Lott III is the founder of LOTT Educational Consultants and lead consultant specializing in the area of alternative practices to deal with managing student behavior. His innovative, whole school approach model was the first of its kind in Texas, and has been considered the blueprint that many campuses across the state of Texas are following. As a former administrator, Mr. Lott’s passion is rooted in social justice, and working with educators to better serve diverse student populations. His focus is on teaching real-life, applicable strategies that are essential for educators to utilize when working with both students and teachers.

Florida Department of Education leadership will be in attendance to share technical assistance with district and school teams.
